

KIMMIE LED SET

Product Dimension

Product Description

- Rated input voltage : 220-240V
- Degree of protection : IP20
- Energy saving up to 60% compared to traditional fluorescent lamp magnetic ballast.
- Environmental protection : KIMMIE LED SET Tube is a green lighting source with low CO2 emission.
- Made of Innocuous material : KIMMIE LED SET Tube does not contain any hazardous substances of glass, mercury and phosphorus.
- Constant light output 2% at supply voltage 187-253V (Constant wattage)
- Delivery of natural white light (Ra 80), and comes without UV radiation.
- Non flickering of light and long lasting LED chip up to 50,000 hrs.
- Easy installation comes with full connection accessories
- Beam angle 130 degree
- As premium grade of Aluminium Main Base , Polycarbonate Light Diffuser provided of light weight, Durability, Non Rusted and softening of light
- Non Dimmable type
- Operating ambient temperature -20 to +40 °c (with non-condensing)
- Comply to Thai Industrial Standard as TIS.1955-2551 (EMC)

Product Code	KIMMIE LED SET 9W DL	KIMMIE LED SET 18W DL
Wattage (W)	9	18
Voltage (V)	220-240	220-240
Frequency (Hz)	50/60	50/60
Power Factor	0.85	0.90
Luminous Flux (lm)	800	1600
Colour Temperature (K)	6000	6000
Color Rendering Index (Ra)	80	80
Weight (Kg)	0.28	0.52
