

PROEYE ELITE LED DESK LAMP

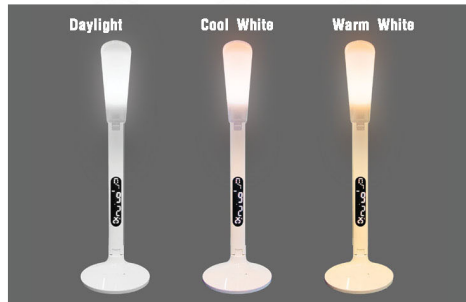

Product Dimension

Product Code	PROEYE ELITE_10W
Working voltage	DC12V-1500mA
Max power consumption	10W
Luminous Flux (lm)	>450
Max Luminous 30cm. (lm)	>1500 Lux
Colour Temperature (K)	3300-5500
Working Temperature	<50 °
Weight (Kg)	1.2

Product Description

- Available 3 mode (Daylight, Warm White, Natural), excellent color reality and eye-protection.
- Adopt high performance LED light and components, lighting more concentrate.
- High sensitivity touch panel, elegant control experience.
- 5-Grade brightness strengths, applicable to different lighting requirements.
- Folding and biaxial rotary design, easy to get best lighting angle.
- Low energy consumption design, saving 90% than incandescent lamp.
- Does not contain the Tungsten, Mercury and other toxic material, environmental friendly.
- No fragile glass parts, safe and ease.
- Long service life module, more than 35000 hours.
- Combination of digital utilize gadget as calendar, alarm clock and temperature.

3 Style lighting mode with soft touch

Digital tube gadget display
